White was considered the best catcher in the 1870s.

Albert Spalding: managed and pitched for the team. Pay was \$2K plus 25% of gate receipts. Record: 78-47 (.624).

He was one of many who began playing with a padded glove. Sore arm limited his play while with CWS.

League:

- **National League** originated on December 17, 1875 – with Hulbert and Spalding forming a league constitution. Prior to 1880, players customarily signed 1-year contracts and were allowed to sign on with another club the following year. Civil war vet **Morgan Bulkeley** served as NL's 1st president.

RULE: Players could move up a base if fly was caught in foul ground.

RULE: Fair/foul: Infield balls landing fair then rolling foul were considered fair. Rule changed prior to 1877 season.

RULE: No substitutions after the 4th inning.

- **Season:** 70-game schedule. Each team was to play 10 games vs. each opponent. **Boston** was only club to play full 70G schedule.
- **Spalding Company** provided NL with baseballs.
- The **curveball** was already in use. **Pitchers** were allowed to throw sidearm until 1884, and take short run prior to pitching. Distance to plate was 45'.

- A stance perhaps perfected by CWS catcher Deacon White: with 0 men on base and less than 2 strikes, catcher stood well behind plate (10-15') and caught the ball on the bounce.
- Captains of visiting teams were allowed to choose among **designated hometown umpires**. Through 1882, umpires were paid \$5/game.
- If ball entered the stands, fans were required to return ball quickly or delay game.

4/22: **1st NL game**: Boston Quakers beat Philadelphia 6-5.

5/13: Hartford defeated NY 28-3

6/14: Boston (24) vs. St Louis (16). Both teams combined to commit ML-record 40 errors.

- **Fielding** was still an art, not a science – Louisville averaged 7 errors/game; NY committed 473 errors (8+ game)
- **Cincinnati** lost 18 games in a row. A great team 6 years earlier, established 2nd worst record ever (worst: 1899)
- **Philadelphia** club lasted 1 year. Another franchise entered NL in 1883.
- St. Louis P **George Bradley** (45-19) led NL in shutouts (16), ERA (1.23) and fewest hits per 9 innings. Bradley pitched for CWS in 1877 but did poorly.
- Once season ended, Hulbert terminated **NY Mutuals** and **Philadelphia** franchises for avoiding late season travel – choosing instead to play exhibitions or final games at home to increase revenue. Both clubs claimed they could not afford travel west.
- **George Bechtel** was expelled from Louisville for throwing games and for offering bribes.
- Cincinnati P William “Cherokee” Fisher was a POW at the nefarious Confederate prison at Andersonville.
- Final year for Philadelphia P **Dick McBride**. McBride served with a military company from Pennsylvania during the Civil War.

RULE: Foul balls caught on the bounce *were an out* until 1883.

Louisville OF **George Bechtel** was suspended for drunkenness – later banned for attempting to bribe NY Mutual player.

Four "**Louisville Crooks**" were banned for life for conspiring to throw the pennant to Boston.

The Grays players were approached by gamblers and conspired to lose 3 ½ game lead on August 13th with 12 left to play.

Club lost every game on road trip.

P **Jim Devlin** pitched all innings for his team. He was one of 4 expelled for suspicious play at end of season.

Three of the four involved (P **Devlin**, 3B **Al Nichols**, and SS **Bill Craver**) confessed; OF **George Hall** did not.

League:

RULE: Walk required 9 balls; amended in 1880.

RULE: Batting order rules were instituted and followed.

- NL raised schedule to 84 games.
- **Pitchers box** reduced to 4’ in width (from 6’ wide)
Pitchers were fined for hitting batters.
- **The umpire** called pitches strike, ball, or foul.
 - Batters with 2 strikes were called out if the foul ball was caught on the 1st bounce.
 - Until 1883, umpire’s fees and expenses were paid by the visiting team.
 - NL came up with 20 umpire candidates living in or near the home team’s city.
- The following teams were added: Cleveland Blues, Buffalo Bisons, Troy Trojans, and Syracuse Stars.
Gone: Milwaukee and Syracuse folded at seasons end. Cincinnati Reds folded but re-organized for 1880 season.
Buffalo franchise came from powerful **International League**. The team went 10-7 vs. NL squads in 1878.
Bisons included future 300-game winner Pud Galvin (361-308). Galvin went 35-41 vs CWS.

Reserve clause:

Introduced secretly by Boston Braves owner **Arthur Soden**, the reserve clause allowed each team to “protect” 5 players – thereby making them unavailable to other clubs.

In short: A player could negotiate only with one club – most likely the current one that listed him on the “reserve list.”

- Other clubs could not tamper with a reserved player by offering him a more attractive salary.
- Unless his contract was sold, traded, or terminated, the player remained reserved forever, even after he had formally retired from the game.
- Clause was intentionally one-sided. Owners were able to set salary levels and eliminate player’s freedom of movement.
- The clause survived the formation of start-up leagues (Players League) and unions, and was even protected by the Supreme Court until a landmark ruling by an arbiter in 1975 eliminated it.

His .673 winning percentage is 7th highest in ML (minimum 200 decisions).

Like many of his peers, Corcoran's life was short - he died in 1891 at the age of 32.

Fred Goldsmith (107-62) was with Troy in 1879. Either he or Candy Cummings invented the curveball.

League:

RULE: **Walk** was now 8 balls (reduced from 9). Number would change often during decade.

RULE: For a batter to be **called out on strikes**, the pitch must be caught without having bounced.

RULE: If **home team** held the lead after the top of the 9th, they were no longer required to bat in the bottom of the inning.

RULE: It was not an automatic HR if the ball was hit over the fence – it depended on the park's ground rules.

- Catchers such as Buck Ewing began the customary squatting position behind home plate.
- Two new pitches were introduced: **the screwball** (aka fadeaway) and **the knuckleball**. Both would be improved upon in the early 1900s.
- The **Batting Average** was introduced to measure a hitter's success.
- NL added the **Worcester Ruby Legs** (1880-82).
- **Washington** franchise was denied NL membership.
- **George Wright** illegally jumped from the Providence club to play for Boston.
- Troy club included (2) future 300+ game winners: rookie **Tim Keefe** (342-225) and **Mickey Welch** (307-210). Neither did well vs. CWS. Keefe went 26-35 and Welch 34-41.

8/28: **Cincinnati** committed 9 errors in 4th inning vs. Troy.

Post-season fallout: **Cincinnati franchise was expelled** from NL by Hulbert for not obeying the rules (i.e. Reds sold beer and leased the park for Sunday play). The club disbanded then later reorganized.

Two well-known rowdies on the same team: **Archie Latham** and **Charles Comiskey** both played for St. Louis of the AA. Comiskey was known to run up and down 3rd base line insulting and swearing at the opposition.

RULE: From 1876-1881, umpires could confer with spectators or players if he could not determine if ball was caught.
 RULE: Only the team captain could confer with umpire.

4/10: NL's 2nd president, **William Hulbert** died at 49 and was replaced by **Arthur Soden** on an interim basis.

- **Reserve clause** was expanded to 11 players.
- NL attempted to color-code position players. Following colors were to the caps, shirts, and belts:
Catchers (scarlet), **Pitchers** (light blue), **1B** (scarlet and white stripes), **2B** (orange and blue stripes),
3B (blue and white stripes or gray and white stripes), **SS** (maroon), **LF** (white), **CF** (red and black), **RF** (gray)
 Scheme ended in June. NL instead allowed colored uniforms – *one per team* instead of by position: Chicago was white,
 Boston red, Buffalo gray, Cleveland navy blue, Detroit gold, Providence light blue, Troy green, and Worcester brown.
- **Gone by season's end:** Worcester and Troy. Troy suffered 16G losing streak; Worcester lost 14 in row.
 The two teams were replaced by **New York Gothams** (later Giants) and **Philadelphia Quakers** (later Phillies).

American Association began and raided NL teams of players. Once the NL recognized the AA, the piracy ceased.

- The two leagues then signed the National Agreement of 1883.
- Two teams from the AA remain today: **Cincinnati Red Stockings** and the **St. Louis Brown Stockings** (later Cardinals).
 AA's **Cincinnati Reds** were first called Red Stockings. St. Louis club was first known as the Brown Stockings.
- One early AA star was the ambidextrous P **Tony "The Apollo of the Box"** Mullane (284-220).
 Mullane won 30+ games 6 times.
- AA was the 1st to hire a full staff of umpires with more generous pay and per diem expenses. NL followed suit in 1883.
 One such umpire, infamous **Richard Higham**, was barred from baseball for indicating to gamblers when to bet on
 the games he was officiating.

AA was notorious for **rowdyism** – Browns' **Arlie Latham** and **Charles Comiskey** were known for their foul, rough play.

- For his part, Comiskey (as coach) ran up and down 3rd base line insulting the opposition.
- Comiskey as strategist: As a first baseman, he played off the bag, leaving pitchers to cover 1st on ground balls hit to the 1B.
 He also shifted players according to the batter's strength and later added 1st and 3rd base coaches.
 Comiskey stayed with Browns from 1882-91 (1 year in Players League).
- **Baltimore** of the AA averaged 7 errors a game (490 errors/73 games)

First Year: Pete Browning and IF **Bid McPhee** of AA; P **John Clarkson**, P Charlie Buffington,

Post season championship: Both games ended in controversy.

10/6: **Lost to Cincinnati** of AA 4-0 (Goldsmith).
 Reds worked around AA's imposed ban of playing NL teams by releasing and re-signing all its players.
 10/7: **Beat Cincinnati** 2-0 (Corcoran 3-hitter).
 Rumored that AA League President Dennis McKnight threatened to punish the Reds if they continued to play.

- Until 1893, one side of the bat could be flat.
- **Salary cap** and player grading (see 1884) led Monty Ward and players to form **Union of Professional Base Ball Players**. Union went unrecognized by NL and AA. Union wanted salaries expressly stated on contracts. NL owners had made a pact with AA counterparts to limit player contracts: \$2K maximum to \$1K minimum.

- **St. Louis Maroons** franchise of the Union Association joined NL and came in last. **NY Gothams** permanently changed their name to **Giants**.
- Cincinnati P **Tony Mullane** was suspended 1 year for signing on with too many teams.

5/27: NY beat Buffalo 24-0.

- **NY Giants** (formerly Gothams) included several members of NY Mets, the 1884 AA champs. Giants P **Mickey Welch** won 17 straight games.
- **Buffalo** lost 16 in a row. **Providence** lost 13 straight games and folded at end of season.
- **Brooklyn Atlantics** (later Dodgers) re-named Grays.

Western League formed (later the American League, 1899).

American Association's withdrawal from National Agreement (1883) led to its eventual collapse at seasons end.

- Baseball in the 1890s had its problems: **Syndication**, with some owners owning more than 1 club (see 1892).
Rowdiness was at its worst – opponents tripping each other; on-field fighting; loud profanity, rampant cheating, and umpire baiting.

Following the 1891 season: NL added 4 teams from the defunct AA: St. Louis, Washington, Baltimore, and a revived Louisville.
The four teams finished in bottom of NL

Cubs committed 17 errors in DH (Sammy Strang, 6); Reds committed 8. Total of 25 errors is **ML record** for DH.

League:

RULE: Until 1950 – home team was given the option to bat 1st.

RULE: **BA title champ:** no specific rule was in place.

Through 1920, candidates were to have participated in 60% of the games to qualify.

- League returned to just **1 umpire** per game (changed in 1909).
- Washington, Louisville, Baltimore, and Cleveland folded after the 1899 season.
Louisville and Pittsburgh teams merged; the Cincinnati and NY Giants teams also combined as one.
Choice of eliminating the **Baltimore franchise** was perplexing: Orioles were often in 1st division.
Louisville owner **Barney Dreyfus** (1900-1931) also owned the Pittsburgh franchise.
After 1899 season ended, Dreyfus shifted **Honus Wagner** and **Tommy Leach** and other Louisville players to Pittsburgh.
Wagner's Hall of Fame career was well underway – winning his 1st of 8 batting titles.
- **NL owners divided:** Four against four.
Chicago's James Hart, Brooklyn's Charles Ebbets, Phillies John Rogers and Pittsburgh's Barney Dreyfus opposed NYG owner Andrew Freedman, Boston's Arthur Soden, Frank Robison (St. Louis), and John Brush (Cincinnati).
Hart's group fought and defeated Freedman's plan for a **National Baseball Trust** – a holding company for the remaining 8 NL franchises. The Trust would have enabled Freedman's group to own 66% stock in the NL.
- **Choosing NL President** was also controversial: Al Spalding vs. Nick Young. Took 25 votes – each ending in a 4-4 tie.
NY Giants owner Freedman walked out, seeking and eventually receiving an injunction to thwart Spalding's victory.
NL had no leader until Harry Pulliam took office in 1902.

- **Players Protective Association** – presented their objections to owners’ reserve clause. NL owners rejected PPA’s objections. Association dissolved in 1903. First PPA President was C Chief Zimmer.
- New and improved pitches on scene: **screwball** (aka fadeaway) – opposite of curveball.
Pitch was perfected by NYG’s Christy Matthewson; the **knuckleball**, and the **spitball** –the last which was banned in 1920.
- **Relief pitchers** were called “rescue pitchers.”
- **Blue Laws** still prevailed. To date: CWS, Cincinnati, and St. Louis were the only teams that played Sunday baseball.
- **Fielding** was still a challenge:
CWS/Phil 3B Harry Wolverton: .881 (49 errors)
Pittsburgh 3B Jimmy Williams: .889 (51 errors)
NYG 3B Piano Legs Hickman: .842 (86-91 errors) – lowest FA for position player
- **NY Giants** P Joe “Iron Man” McGinnity hit an ML record 41 batters.
- **Pittsburgh’s** Rube Waddell won ERA crown despite 8-13 record.
- **Western League** moved the Grand Rapids club to Cleveland –later became the Cleveland Indians.

First Year: P **Christy Matthewson**. Cincinnati traded him to the NY Giants for P Amos Rusie.
Matthewson’s Hall of Fame numbers: 373-188, 2.13 ERA and 79 shutouts.
Cincinnati franchise considered this their worst trade in club history.

A word about **Negro Leagues:**

While representing a city, teams also “barnstormed” – traveling about from city to city.
Establish a league of existing teams – but also played 50-150 exhibition games; never a balanced schedule.
Most Negro League teams were from the north; most blacks lived in rural areas of the south.
Teams and Leagues had difficulty obtaining money – banks would not do business.
Smaller clubs meant more versatility among players (pitched, caught, managed).
“Giants” was code for a Negro team.
